# STONE POLYMER COMPOSITE

## A Sustainable Flooring Solution

- Eco-Friendly
- Quick and Easy to Install
- Click System
- 100% Waterproof
- Acoustic Qualities  
Sound Reducing Attached Underlay
- Good Foot Feel
- Durable, Easy to Clean / Maintain
- 25-Year Residential Warranty;  
5-Year Commercial Warranty
- Formaldehyde free, Pet friendly
- No scratches, High heel safe - no dents

# WHY SPC ?

## Waterproof

100% waterproof, can be installed in kitchens, bathrooms, laundry rooms and restaurants without any worries!

## Stability

The SPC vinyl core is more stable in environments with temperature changes, such as cabins, homes with AC units and homes with humidity fluctuations.

## Comfort, Healthy & Quiet

Formaldehyde free.

100% natural cork backing makes SPC sturdier, cushioned and softer under foot than a traditional vinyl. No hollow sound when walking on it.

## Click-installation system

40% faster to install than glue down floors. It is installed similarly to a regular vinyl and laminate with a click-system installation. No glues or extra tools are required!

## Affordability

Budget friendly. No further spending on underlay as it can be installed as-is on the subfloor. Saves time on installation. Makes DIY flooring jobs easier.

## Easy Maintenance

Designed to be easily cleaned with regular sweeping and mopping. Same cleaning and maintenance needs as a regular vinyl.

## Hardwood Appearance

A variety of looks, textures and styles. SPC can be fitted in bathrooms, kitchens, yoga / fitness studios etc.
